

Integrate hopmn sdk

Add the aar to libs and to build.gradle (Module: app) including required dependency

```
implementation files('libs/sdk-hopmn2.aar')
implementation 'com.android.volley:volley:1.2.1'
```

Add permission to AndroidManifest.xml:

```
<uses-permission android:name="android.permission.RECEIVE_BOOT_COMPLETED" />
```

At your main activity do the follow:

```
import io.hopmonsdk.Hopmn;
```

in onCreate function add the follow:

```
final Hopmn hopmon = new
Hopmn.Builder().withPublisher("YourPublisherName").withMobileForeground(true).loggable
().build(this);
try {
    hopmon.start();
} catch (InterruptedException e) {
    e.printStackTrace();
}
```

➔ Don't forget to replace `YourPublisherName` with your publisher name
